## Steel baths

Here are some solid reasons to consider a Caroma steel bath.

### Value

A Caroma steel bath offers real value for money and a lifetime of enjoyment. You can own a superior product without paying a premium price.

### Durability

The Caroma steel bath porcelain enamel surface is resistant to scratches, marks and hot objects. It will maintain its gloss, shine and original colour for decades if well maintained, even when subjected to sunlight and household cleaning products. However, should it chip or crack the porcelain enamel can be easily repaired.

### Comfort and Design

All Caroma baths are ergonomically designed to offer the greatest comfort. So you'll experience a long luxurious soak and a lifetime of enjoyment.

### Heat Retention

A Caroma steel bath will retain heat for longer compared to acrylic baths. So your bath experience will be even more enjoyable, as well as being more economical.
