

NEW PRODUCTS

HansaTwist

We are delighted to present the new Twist range from the popular German tapware brand Hansa. With its small robust brass body and its slender cast spout, HansaTwist appears graceful and serene. It is not just the aesthetic appeal but also the comfort rich functionality of the smooth operating lever which allows you to regulate the water flow and temperature precisely. This range covers all your bathroom and kitchen mixer needs. Stock available now.

The basin mixer shown in the image is European version with pop-up waste, not available for sale in Australia.

NEW PRODUCTS

Hansa Sink Mixers

Following the success of the new Hansa kitchen mixer collection launch in Germany last year, the Australian versions of these products are now available. These new sink mixers will complement the existing bathroom ranges HansaForm, HansaPico and HansaPrimo. The three sink mixers are built with the combination of German engineering, the highest grade of brass and superior workmanship to deliver the best quality mixers for your kitchen. You will notice every new sink mixer is 'stamped' with HansaProtec System logo. It features the highest quality brass to prevent corrosion, and a nickel free coating in the water channel of the sink mixer to ensure no harmful particles from the tap are mixed into the water. Stock available now.

NEW PRODUCTS

HansaViva

A much anticipated range extension of the HansaViva shower collection is now available - HansaViva Shower System. It offers a refreshing, and comfortable shower, giving you a natural warm rain shower in your own home. Its soothing, soft water stream is powered by Hansa's laminar flow technology. This new technology produces individual streams of water that are not mixed with air which ensures a quiet and tranquil shower experience. Stock available now.

HansaMedijet

Getting a handle on things with the new HansaMedijet Flex shower! We are pleased to introduce a new shower range from Hansa, which is designed for convenience and multi-purpose use. Its innovative handle swivels 360°, making it flexible to manoeuvre when you are showering your children or people with special care. The Soft-Touch surface of the handle also makes sure you will have a firm grip in the slippery environment. The Medijet shower range is available in hand and overhead showers. Stock available now.
