Update on Anti-Dumping Case on Deep Drawn Sinks from China

The Anti-Dumping Commission has issued the final report relating to deep drawn sinks from China. The key points from the 200 page document are that the major suppliers to our market from China will have a Dumping Duty applied from between 10.7% and 15.4%. One exporter will have 5% applied. Small and non-cooperative exporters will get 52.6%.

Australian Customs have been placing securities on deep drawn sinks imported from China since October 2014. These securities have now been converted to Import Duties and are now payable. The GWA Price Increase of 1st March 2015 has taken into consideration the duty rate on the applicable sinks in our range.

Any further questions, please do not hesitate to contact your Account Manager.

NEW PRODUCTS

Caroma Genuine Parts - Sanitaryware Spares

The Caroma Genuine Parts range has received a brand and packaging refresh. We have taken the opportunity to introduce a bulk range of products for the plumbers convenience.

Using Caroma Genuine Parts for toilet cistern repairs ensures the ongoing efficiency and performance of your toilet. Our 12 month warranty along with the assurance of our stringent level of quality testing and engineering expertise gives you the confidence that Caroma Genuine Parts are worth the investment long term.
