### Caroma Unveils Timeless Sunstone Solid Surface Collection

*inspire*  
**Caroma**

Caroma continues to bring timeless sophistication to the bathroom with the unveiling of the new Sunstone solid surface collection.

This range of basins and an incredibly decadent freestanding bath offer a pared back aesthetic and create an unassuming authority in any bathroom. The fine, delicate lines and velvety smooth contours of the solid surface material deliver meticulous detail with an on trend matte finish.

With carefully curated lines and sharp detailing Sunstone embraces the aesthetic demands of modern architectural styling. The range is Caroma's first full solid surface collection, the soft to touch advanced composite material blends optimal functionality and durability and is backed by Caroma's renowned innovation and advanced engineering.

The basin collection is available in five wall-hung styles, suitable for a range of spaces from powder rooms, ensuites and apartment living to larger commercial and residential applications. The basins can also be installed with bespoke cabinetry (against the wall) for added installation versatility. Further functionality and practicality is achieved from the optional integrated towel rail which is available in both chrome and matte black finishes.

Rediscover relaxation with the Sunstone Freestanding Bath. A total showstopper, this bath is an escape from the everyday. A spacious interior makes it ideal for an indulgent and relaxing soak while its 1810mm length makes it exceptionally comfortable for two. The soft touch material elicits warmth and tactility, wide

functional ledges mean your favourite bathroom indulgences are close at hand.

Commenting on the new range, Dr Steve Cummings, Research and Development Manager at GWA Bathrooms & Kitchens said, "In the initial development phase, we wanted to fulfil the increasingly high demand for solid surface material products and maintain our distinctive reputation for identifying future design trends. Sunstone is the stunning result. Utilising the high quality solid surface material provided greater design latitude and allowed the products to deliver an on trend thin rim detail"

**"With carefully curated lines and sharp detailing Sunstone creates sleek sophistication."**

The Caroma Sunstone collection also comes equipped with a 10 year Caroma warranty for both domestic and commercial applications.

### Caroma Brings Sculptural Elegance to the Bathroom with New Cupid Collection

*inspire*  
**Caroma**

Caroma captures natural organic aesthetics with its new Cupid Collection, delivering understated elegance to any bathroom space.

Beautifully crafted, the curved vessel style basins are central to the collection, providing a sculptural element to the bathroom. Characterised by free-flowing contours and an expressive silhouette, Cupid basins blend clean lines with soft, organic forms to achieve a timeless, European-inspired appearance.

The basin collection is available in two functional sizes (500mm and 700mm) in an elegant above-counter style, suitable for a range of residential and commercial requirements.

Completing the Cupid Collection is the deep, voluptuous freestanding bath. A captivating centrepiece in any bathroom, it exudes luxury and intimacy and allows an all-embracing soak. The bath recreates the ambience of a luxurious day spa or retreat, while its generous depth and length is comfortable enough to share, if you want to.

The Caroma Cupid Collection also comes equipped with a 10 year Caroma warranty for both residential and commercial applications.
