

WATERSEGE APARTMENTS - RHODES, NSW

Builder: Mirvac

BACKGROUND

GWA Bathrooms & Kitchens was appointed to provide a full schedule of fixtures and fittings for this new residential development located in the landmark Rhodes Waterside precinct. Proving to be leaders in water efficiency technologies, GWA Bathrooms & Kitchens supplied a range of dual flush toilets, water efficient taps and showerheads, as well as bathtubs and basins.

Mirvac's Senior Interior Designer, Michelle Astudillo stated, "We selected GWA Bathrooms & Kitchens to achieve a balance between function and aesthetics and to meet the sustainable design requirements for the development. Their products offer clean lines and a modern, yet timeless feel, which is perfect for our target market."

Michelle concluded, "GWA Bathrooms & Kitchens is a trusted Australian brand and has been providing products for Mirvac developments for many years now. In our experience, their level of service, innovative product design, reliability of supply and product durability is exemplary."

CHALLENGES

Waters Edge is one of Mirvac's many environmentally sustainable residential releases. All common property landscaped areas are connected to a district recycled water system for irrigation, as are the apartments, for use in laundries and toilets to reduce water usage. Whilst hot water is provided by a centralised, energy efficient, natural gas system allowing hot water usage to be monitored and controlled.
